

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

# **REPORT.**

OFFICE OF THE STATE BOARD OF ASSESSORS,  
TRENTON, N. J., October 31, 1903.

*To the Legislature of New Jersey:*

For the reason set forth in Part I of its report for the present year (viz., the increasing size of the Document), this portion of the Annual Report of the State Board of Assessors is devoted to matters pertaining to the assessments levied against Miscellaneous Corporations, under the Act of April 18, 1884, and its supplements, and to the assessment and apportionment of franchise tax levied, under Act of March 23, 1900, and its supplements, upon Corporations using or occupying the public streets or highways.

### **MISCELLANEOUS CORPORATIONS.**

During the past year assessments have been levied against 9,449 corporations, amounting to \$3,380,439.87 tax, classified as follows:

1	Electric light company .....	\$25 11
3	Life insurance companies incorporated in New Jersey..	223,682 23
14	Insurance companies other than life.....	5,673 60
1	Parlor, palace or sleeping car company.....	2,141 15
5	Express companies .....	1,237 55
9,425	Companies taxed upon capital stock.....	3,147,680 23
<hr/>		<hr/>
9,449		\$3,380,439 87

Incidental to the foregoing assessments the Board, acting under provisions of Chapter 89, Laws of 1897, has passed upon the petitions of appeal of 188 corporations, adjusting their respective assessments as the law and the facts in each case warranted, in

many instances granting hearings at which testimony was taken and arguments of counsel listened to.

The occasion for these appeals arises from two causes: (1) the assessment of tax upon an erroneous return of the company, and (2), an assessment levied upon the full authorized capital stock, because of the failure of the company to make the required return showing the amount of capital stock issued. In either event the corporation assessed has the statutory right to appeal to this Board for review and adjustment of the assessment, provided such appeal shall be made within three months from the date of assessment, after which period the jurisdiction of our Board ceases, and the only relief obtainable by the corporation is through certiorari proceedings in the Supreme Court. As an evidence of the extent to which this latter course is resorted to, we append a list of the corporations which have been allowed writs of certiorari by the Supreme Court since January 1, 1903, a course for which there would have been no necessity had the appellant corporations made proper returns to this Board, or had appealed to the Board for review of the assessments within the time limit fixed by law.

Before closing this branch of our subject, the Board desires simply to add that of the 9,449 corporations assessed for taxes of 1903, assessments were laid upon more than 3,300 corporations upon the full amount of authorized capital stock, in default of returns; in other words, more than one-third of the corporations assessed failed to make proper returns as required by law, and despite the utmost endeavors of the Board to secure such returns.

The following table is a summary and comparative statement of the assessments levied upon miscellaneous corporations for the years 1884 to 1903, inclusive, and is indicative of the enormous increase in this portion of the Board's work:

YEARS.	Number of Corporations Assessed.	Amount of Tax Assessed.	Increase in Number of Corporations Assessed.	Increase in Amount of Tax Assessed.	Decrease in Amount of Tax Assessed.

1903.....	9,449	3,380,439 87	882	502,366 76	.....

From the foregoing table it would appear that the number of taxable corporations was 882 more than in 1902; this, however, is simply the *net* increase, the Governor having early in January last by proclamation forfeited the charters of 970 corporations

for non-payment of taxes of previous years, so that, as a matter of fact, assessments against 1,852 *new* corporations appear in the levy of the present year.

The receipts of the State Treasury from Miscellaneous Corporations for taxes of 1903, during the last fiscal year, reached the sum of \$2,038,176.01, and for account of taxes of previous years the further sum of \$140,780.20, a total of \$2,178,956.21; to this must be added the receipts of the Secretary of State for incorporation fees, amounting to \$321,433.94, which were likewise paid into the State Treasury, making the total receipts from Miscellaneous Corporations the enormous sum of \$2,500,390.15.

#### INSURANCE COMPANIES OTHER THAN LIFE.

Every Insurance Company, other than life, of another State or foreign country, transacting business in this State, has hitherto been subjected by this Board, under provisions of the Corporation Tax Act of April 18, 1884, and its supplements, to an annual tax of one per centum upon the amount of their respective gross premium receipts for business done in this State. The same companies were likewise assessed by the Banking and Insurance Department, under the Insurance Laws, an annual tax of two per centum upon gross premium receipts, making a total tax of three per centum, which has always been considered excessive, and, under the usual retaliatory laws of the various States, likely to produce the same rate of tax against the Insurance Companies of this State doing business in other States. The Legislature of New Jersey, therefore, by its Act approved April 8, 1903 (Chapter 236, P. L. 1903), provided that the corporations above referred to should pay to the Commissioner of Banking and Insurance an annual tax of two per centum upon the amount of gross premium receipts for business done in this State, which tax should be *in lieu* of all other franchise taxes imposed upon said corporations, thereby eliminating the additional tax of one per centum imposed by this Board.

Surety Companies, which have, since 1896, been assessed by this Board an annual tax of two per centum upon the amount of gross premium receipts for business done in New Jersey (see Chapter 219, P. L. 1896) have likewise been transferred for pur-

poses of taxation to the Banking and Insurance Department, it being deemed fitting that jurisdiction over all questions pertaining to corporations of this class should be vested in that department. (See Chapter 134, P. L. 1902, and repealer of April 8, 1903, Chapter 233, P. L. 1903, end of Section 1.)

Chapter 208, Laws of 1903, entitled "An act for the assessment and collection of taxes," approved April 8, 1903, provides (Sec. 18, page 405), "Every *fire insurance company* and every trust company shall be assessed in the taxing district where its office is situated, upon the full amount of its capital stock paid in and accumulated surplus, \* \* \* , *no franchise tax* shall be imposed upon any such *fire insurance* or trust company." As this act takes effect December 20, 1903, it is quite evident that the *annual franchise tax* heretofore levied by this Board upon domestic fire insurance companies for business done in this State, can no longer be assessed.

#### MUNICIPAL FRANCHISE ACT

The Legislature of 1903, by two Acts (Chap. 142 and Chap. 151, P. L. 1903), amended the original Act of March 23, 1900, for the taxation of the property and franchises of persons, co-partnerships, associations or corporations using or occupying the public streets, highways, etc. (Chap. 195, P. L. 1900.)

The specific change made by the first of these amendatory Acts (Chapter 142), is to place in the hands of this Board the power to inquire into, equalize and revise the valuations returned to them by the local assessors of the various taxing districts, and to fix the valuations for that purpose for any taxing district which shall fail to file its return within the time required by law, so as to secure an equitable and fair valuation and apportionment of said franchise tax upon a uniform basis of valuation between the various taxing districts entitled thereto. Hitherto the Board has by law been absolutely compelled to accept the valuations reported by the local assessors, and to apportion the franchise tax upon the basis of such valuations, despite the very apparent over-valuations made in certain instances for the purpose of securing a greater proportion of said franchise tax. This year, however, acting under the authority granted by the above

quoted amendment, the Board has endeavored from the data at hand to so adjust and apportion the franchise tax that the result would be fair and equitable as between the taxing districts entitled to receive such tax. The Board is, nevertheless, still of the opinion expressed in its report upon the same subject in 1902, that until the law is so amended as to place in its hands the fixing of the valuation of all property located in the public highways and belonging to "public service" corporations, there will not, and can not be, an absolutely equitable distribution of the franchise tax. It need not necessarily follow that the valuations so fixed by this Board shall be accepted by the local assessors as the basis for the assessment of local tax; the object to be attained being simply the establishment of a standard basis for the apportionment of the franchise tax.

The effect of the second amendatory Act of 1903 (Chapter 151), is to change the basis of tax from the *entire* gross receipts to a proportionate part of such gross receipts based upon the actual mileage *in the streets and highways*; in other words, a corporation with one-half of its lines on private rights-of-way would be subject to franchise tax upon one-half of its gross receipts. This amendment has, of course, materially benefited certain corporations, a great portion of whose lines are located on private rights-of-way, but in view of the fact that the original Act gave to oil or pipe line companies the privilege of assessment upon a proportionate part of gross receipts based upon actual mileage in the *public streets and highways*, it seems but equitable that the same advantage should accrue to all other corporations subject to franchise tax under the Act.

#### ASSESSMENT AND APPORTIONMENT OF FRANCHISE TAX

Assessments based upon returns made were levied against 251 corporations and 4 individuals, amounting in the aggregate to \$408,326.78, tax classified as follows: (the increase in tax over 1902 being the sum of \$35,106.09):
